

AIT Contract Logistics for Retail and e-Commerce

**Your retail supply chain deserves more than a warehouse.
It deserves a strategic 3PL partner.**

Retail and e-commerce supply chains move fast—and customer expectations move even faster. Whether you're supporting omnichannel fulfillment, managing seasonal demand, or expanding into new markets, AIT Contract Logistics delivers flexible, scalable 3PL solutions that keep inventory moving and customers satisfied.

As a global contract logistics provider, AIT designs and operates customized logistics programs that integrate warehousing, fulfillment, transportation, inventory management, and value-added services into one seamless solution. Backed by AIT's global freight forwarding expertise, we help retail brands build resilient supply chains that improve service, reduce costs, and support long-term growth.

Contract logistics solutions built around your business

Every retail operation is different. That's why AIT develops customized contract logistics programs that align with your products, channels, and growth strategy—not a one-size-fits-all warehouse model.

Our retail and e-commerce 3PL solutions include:

- ✓ Multi-client and dedicated warehousing
- ✓ Omnichannel fulfillment for DTC, B2B, wholesale, and retail replenishment
- ✓ Inventory management and warehouse optimization
- ✓ Transportation management and integrated distribution
- ✓ Cross-border logistics and import coordination
- ✓ Value-added services, including kitting, labeling, packaging, and light assembly
- ✓ Returns processing, reverse logistics, and refurbishment
- ✓ Technology integration with WMS, ERP, and customer platforms

Why retailers choose AIT contract logistics

End-to-end supply chain integration

Unlike traditional warehouse providers, AIT connects contract logistics with transportation, customs brokerage, and global freight forwarding to create a more efficient, responsive supply chain.

Scalable operations

Whether you're preparing for peak season, launching new products, or entering new markets, AIT provides the operational flexibility and warehouse capacity to scale alongside your business.

Inventory visibility

Real-time inventory management and reporting provide greater control across your distribution network, helping improve order accuracy, reduce stockouts, and optimize inventory investment.

Value-added logistics services

Enhance efficiency through customized services including retail compliance, labeling, kitting, packaging, quality inspections, postponement, and product customization before shipment.

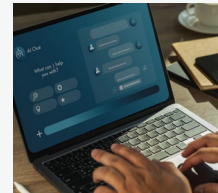

Reverse logistics expertise

Simplify returns while protecting customer satisfaction with efficient inspection, refurbishment, redistribution, and disposition programs.

Global infrastructure. Local execution.

AIT Contract Logistics operates a growing global network of strategically located facilities with more than 20 million square feet of warehouse space. Positioned near suppliers, ports, manufacturing hubs, and major consumer markets, our network helps retailers shorten lead times, improve inventory positioning, and respond quickly to changing demand.

A strategic 3PL partner invested in your success

At AIT, contract logistics is about more than managing inventory—it's about building supply chain solutions that create competitive advantage. Our teams work as an extension of yours, combining operational expertise, technology, and global logistics capabilities to help you improve service, control costs, and deliver exceptional customer experiences.

A partner that works as part of your team

AIT Contract Logistics helps your team stay focused on product, customers and growth while we manage the logistics details behind the scenes - from inbound planning and value-added operations to outbound execution, returns triage and project support.
